

Dynamics 365 for universities, graduate and business schools

ABOUT NET IT NV:

Net IT helps organizations to work smarter, improve customer experiences and gain actionable insights from data. We specialize in delivering business applications and CRM solutions via Microsoft Dynamics 365 and Power Platform.

What our customers are saying

“If we now set up a mailing campaign, we immediately reach the right student at the right time.”

– Valérie Gillis, Coordinator external communication, University of Antwerp

WHAT WE OFFER

Higher productivity

As a higher education institution, you manage a lot of information about people. With Microsoft Dynamics 365 we enable you to centralize all this information. You can work more efficiently and better manage your communication with students, staff, alumni and donors.

Student management

In Dynamics 365 we provide you with a 360° view on student in every stage of their journey, from prospective student to alumnus. This way, you understand them better and are able to deliver a more personalized student experience.

Digital marketing

We offer your communication team with professional tools for digital marketing and automation. This to guarantee a more smoothly student lead generation, email communication and event management (info days, open class days and all other events).

Why Dynamics 365?

Modern applications

Modern applications that deliver new experiences and connect with a businesses' existing systems to allow organizations to digitally transform their way. Applications that use mixed reality, the ability to take an application that overlays on the reality in front of the user, that guides them through a business process like never before. Connect to information from social networks, mobile devices, and micro-applications to drive intelligence and inform a more effective business process.

Unified data and processes

Unified data and processes that enables business without silos. Centralized data enables disparate groups to work together effectively with a single, trusted view of processes, relationships, and data. Data connectors allow thousands of systems to bring their data to a single network.

Intelligence that delivers

Intelligence that delivers actionable insight. Data in the new world includes social, relationship and productivity information in addition to insights generated by business systems. The right solution requires a unified approach that allows companies to automatically leverage their data to decide and act in real-time with expanded analytics, predictive algorithms, and automated AI.

An extensible environment

An extensible environment that enables change. The right solution establishes a data, communication, and application environment that makes it easy to evolve and extend existing business operations, while introducing technologies that enable users to create solutions where no solution exists and to expand data analysis.

Transform on your terms with Microsoft Business Applications. Enable people to do their best work. Gain actionable insights. Thrive with solutions expressly built for change. Unlock next.
