WHAT WE OFFER

Better view of your customer

Net IT helps your company to centralize customer information and get a complete view of the specific sales dynamics that play out between your manufacturing company and the end customer. Get a more accurate picture of your customers so that you can better respond to rapidly changing customer needs.

Actionable insights

With the many analysis options and intelligence (AI, IoT) embedded in Dynamics 365, we help you get a faster grasp of the enormous amounts of data generated by production activities. You will gain actionable insights to make business processes more efficient, predict customer needs, develop new services, etc. All this to keep growing and always be one step ahead of your competitors.

Why Dynamics 365?

Modern applications

Modern applications that deliver new experiences and connect with a businesses' existing systems to allow organizations to digitally transform their way. Applications that use mixed reality, the ability to take an application that overlays on the reality in front of the user, that guides them through a business process like never before. Connect to information from social networks, mobile devices, and micro-applications to drive intelligence and inform a more effective business process.

Unified data and processes

Unified data and processes that enables business without silos. Centralized data enables disparate groups to work together effectively with a single, trusted view of processes, relationships, and data. Data connectors allow thousands of systems to bring their data to a single network.

Intelligence that delivers

Intelligence that delivers actionable insight. Data in the new world includes social, relationship and productivity information in addition to insights generated by business systems. The right solution requires a unified approach that allows companies to automatically leverage their data to decide and act in real-time with expanded analytics, predictive algorithms, and automated AI.

An extensible environment

An extensible environment that enables change. The right solution establishes a data, communication, and application environment that makes it easy to evolve and extend existing business operations, while introducing technologies that enable users to create solutions where no solution exists and to expand data analysis.

Transform on your terms with Microsoft Business Applications. Enable people to do their best work. Gain actionable insights. Thrive with solutions expressly built for change. Unlock next.
